| HSC | Vijayalakshmi Matriculation Higher Secondary School | State Board | 81.83% | 2022 - 2023 |
| SSLC | Vijayalakshmi Matriculation Higher Secondary School | State Board | Pass | 2020 - 2021 |

## SKILLS

- **Programming Languages**: Python (Intermediate), Java (Basic), JavaScript (Intermediate)
- **Web Development**: HTML (Intermediate), CSS (Intermediate), MERN Stack (MongoDB, Express.js, React.js, Node.js – (Intermediate)
- **Databases**: MySQL (Intermediate), MongoDB (Intermediate)
- **Tools & Platforms**: Figma (Intermediate), Flutter Flow (Intermediate), Git/GitHub, Firebase.
- **Soft Skills**: Problem Solving, Time Management, Leadership, Teamwork & Flexibility

## CERTIFICATION

- **Basics Of Java** | 40+ Hours | Prepinsta
- **Python** | 30+ Hours | Prepinsta
- **Basics of UI / Ux** | 2+ Hours | Great Learning
- **IBM** | IBM Enterprise Design Thinking Practitioner
- **MERN Stack** | **Guvi** | Building An ticket App in a Week

## PROJECTS

- **Smart Competency Diagnostic and Candidate Profile Score Calculator** 2024

  Worked in a team to build a tool that evaluates candidate competencies and generates personalized profile scores, improving recruitment accuracy by 30%. Enjoyed learning Python, SQL, and machine learning while integrating the tool with candidate management systems for seamless evaluations.

- **MAC: Smart Hospital Management with Predictive Analytics** 2025

  Developed a Smart Hospital Management System to forecast patient inflow and automate bed allocation, doctor scheduling, and patient queue management, enhancing operational efficiency. Technologies used: React, Node.js, PostgreSQL, Python, and APIs.

- **Smart Blockchain Herbal Traceability System** 2025

  Developed AyurTrace Chain, a blockchain-based web application ensuring end-to-end traceability of Ayurvedic herbs from collection to consumer. Implemented multi-role authentication and leveraged blockchain for transparency, authenticity, and tamper-proof product provenance.

## INTERNSHIP

- **Internpe | Python Developer** 2024

  Collaborated in a team to develop a tool that assesses candidate competencies and provides personalized profile scores, enhancing recruitment accuracy by 30%. Utilized Python, SQL, and machine learning algorithms for automated score calculation and detailed competency reports. Integrated with candidate management systems for streamlined evaluation.

- **MindFulAi | FullStack Developer** 2025

  Developed MindfulAI, a full-stack web application showcasing a personal portfolio and enabling users to book appointments seamlessly. The platform is built using the MERN stack (MongoDB, Express.js, React.js, Node.js) and incorporates user authentication, dynamic scheduling, and a responsive, modern UI.

## ACHIEVEMENTS

- **Data Analytics and Visualization Job Simulation** | Forage
- **Hackfest** | Hackathon | IntraCollege | Winners
